## DULL IN WALL STREET

EXCHANGES ALL CLOSED AND NOTH-ING BUT BANKS WERE OPEN.

Bradstreet Gives a Financial Review of the Week's Speculation-Loeal Markets Quiet.

All exchanges in Wall street were closed yesterday, and although Good Friday is not a legal holiday in that State, little business of any kind was done in Wall street outside of the banking institutions which are required to be open.

Bar silver was quoted at 66%c, and Mexican dollars at 53c. Sterling exchange was dull, with an actual business in bankers' bills at \$4.89%@ 4.891/2 for demand, and at \$1.88% 674.881/2 for

sixty days; posted rates, \$4.881/604.891/2 and \$4.90@4.9014; commercial bills, \$4.8714. A special dispatch to the Journal from Colorado Springs, Col., gives the following

have been irregular, but in spite of modefate declines in certain portions of the list the undertone continued strong and there was a disposition to rally prices on any slight favorable developments. At the beginning of the week the room traders were inclined to put out shorts on the general feeling of dissatisfaction with the decision of the Supreme Court on the income tax Provisions.

As it soon became apparent that danger of an extra session of Congress was fictitious a tendency to cover these contracts made its appearance and gained in force as the end of the week approached. Several of the incidents of the week were of an unfavorable character, among which may be recounted the Burlington annual report, the reduction of the Jersey Central and Chicago dividends, and the apparent manifolity of the anthracite coal agents to come to any agreement regarding production or allotments. Apart from the general heaviness of the granger stocks, none of them, however, had any decided effect, the coal stocks, in fact, showing support in the face of the circumstances referred to. The only bull manipulation of any moment was in Sugar, which had a moderate advance, while there were some interesting developments in connection with North American, long and dormant security. The market took little notice of the April first government crop report. A weaker tendency in foreign exchange was vegetaged as

CHICAGO, April 12.—Prices were no more steady in cattle to-day, although only about 4.500 were received, making a total of but 40,000 for the week so far, or 28,000 less than were received in the same time last year. Steers sold at \$466.10, and medium to good cows went at \$364.60, canners' lots bringing \$1.5062.50. Fewer beeves are selling around \$6 than heretofore, and a good many very desirable fat medium to large steers are finding purchasers at \$5.6065.85. Texas cattle are becoming plentier. Nearly 1,000 arrived yesterday, and to-day's receipts are estimated at fully 1,500 head. City packers were again buying sparingly, and sifeceeded in forcing another reduction of about 5c, although not more than 23,000 hogs were in the yards. Packers are all bearish on hogs, and are evidently not going to run their packing houses freely until they can buy at considerably lower until they can buy at considerably lower figures. The average quality of the offerings was poorer than it was the last two days, and very few choice lots were received. Common to best droves sold at \$4.70 @5.39, pigs at \$4.25@4.60, and culls at \$3@4.40. A few prime heavy hogs sold at \$5.15@ 5.20, the bulk of the heavy lots fetching \$4,95665.10. Choice light assorted sold at \$4.95615.

Sheep—An extremely dull market was experienced this morning, and aside from moderate purchases of fat heavy Westerns at \$4.50@4.75 by exporters very little was done. The week's receipts have been much smaller than recent weeks and show a decline of more than 8,000 as compared with the same time last week.

There will be a meeting at Marmont Hall o-morrow morning for the purpose of organizing a local branch of the National Brotherhood of Painters and Decorators, Jacob Tazelar, of Grand Rapids, Mich., general organizer of the brotherhood, is here for that purpose. There is some talk of the organization withdrawing from the National Federation of Labor. The brother-hood does not like the treatment which it has received from the federation and it is said Mr. Tazelar, while in this city, is trying to get the tinners and cornice workers now in session, to secede. There is a split in the brotherhood at present and Mr. Tazelar represents the faction that threatens to withdraw from the federation.

STEADY PROGRESS TOWARD BET-TER BUSINESS IN ALL LINES.

Strikes Are a Drawback in Some Localities-Dun & Co. and Bradstreet Review the Week's Trade.

NEW YORK, April 12 .- R. G. Dun & Co.'s weekly review of trade, which issues tomorrow, will say: Progress toward better business continues, but it is slow and meets many obstacles. in speculative aspects and in wholesale demands for goods the week shows improvement. Money markets are undisturbed and a little more active. But among the chief obstacles is the anxiety of operatives to secure better wages, even while many manufacturing works are running without profit and others at the risk of loss. In a number of establishments better wages have been conceded, thus increasing the purchasing power of the people, but strikes have largely overbalanced settlements, several of importance having thrown about twelve thousand workers out of employment this week. Retail trade has improved on the whole since March, as the approach of Easter brings more business, but distribution to individual consumers still lags behind purchases of jobbers and such demand for products as springs from building and other investments looking into the future. Crop prospects will greatly affect the course of trade for some months and the govern-

of trade for some months and the government report had little influence to discourage. For consummers the worst feature is the rapid advance in meats.

For the first—time in a long—period prices of commodities average a snade higher than a year ago and in Great Britain aiso, owing to different causes, a slight advance occurred in March. On both sides of the ocean the lowest level ever known may naturally be followed by some rise. Cotton is on both sides more buoyant than anything else except meats and petroleum—here, crude oil having risen to \$1.80, the highest price for over seventeen years. Nothing supports the advance of an eighth in cotton the past week except the impression that the next crop will be short, for receipts are large and about 150,000 bales more than the largest crop—ever grown have already come—into sight this year. Wheat has yielded nearly a cent, although Atlantic exports for two weeks have been 3,70%,643 bushels last year, with Western receipts only 208,846, against 4,223,434 bushels last year. Receipts of corn are about half and exports about one-fifth of last year's. Decrease in receipts of cattle is exaggerated, 659,406 having arrived at Chicago, against 749,543 to date last year, and the prevalent opinion is that Western packers are helping nature to some extent.

The output of pig iron April 1 was 158,122 tons weekly, practically the same—as The output of pig iron April 1 was 158,132 The output of pig iron April 1 was 158,132 tons weekly, practically the same as March 1, with a decrease of 1,080 tons in unsold stocks during the month. Doubtless heavy stocks were taken up by manufacturers in anticipation of a strike in coke works, but the apparent consumption is larger than at any other time for some months, and only a sixth less than in March, 1892. Bessemer iron has advanced a little further to \$10.75 at Pittsburg, but there is no change whatever in prices of

there is no change whatever in prices of nnished products during the week, and while the demand continues good structural forms and a little better for bar, the market decrease in demand for wire, owing to the scant purchases farmers for fencing, affects the outle farmers for fencing, affects the outlook. It seems probable that pig iron must recede unless a larger demand for finished products is soon developed. Sales of well are particularly interesting, amounting for the week to 6,030,200 pounds and for five weeks previous to 25,621,200, against 25,277,676 in the same weeks of 1842. In brief, sales are close to the quantity required for a full consumption and the long delay in placing orders and the lateness of the season make the proportion of mills at work son make the proportion of mills at work larger than usual. No improvement in prices appears, and domestic wool does not espond to recent advances in foreign markets. The low price encourages manufac turers to compete much more vigorously with the foreign goods of many kinds than they had expected and for the medium and cheaper grades of goods they have more than the usual demand, because purchases of consumers have for two years been com-paratively small. The better goods fare not so well, foreign competition being more effective, but there is a good demand for dress goods. In cottons continued strength appears with further occasional advances

of 14c and 15c in print cloths, and the ag-gregate is fair. Many agents are sold well ahead. Failures for the week were 207 in the United States, against 218 last year, and twenty-seven in Canada, against thirty-four

Bradstreet's Weekly Review. NEW YORK, April 12 .- Bradstreet's tomorrow will say: The feature in trade circles is found in the price movement, more particularly those for cattle, dressed beef and petroleum. Drought, low prices and "hard times" within two weeks have resulted in a shorter supply of cattle, prospectively 30 per cent. less than last year. Live cattle are \$1.60 higher per 100 pounds than last year, and \$1 higher than the lowest point this year. Dressed beef is 21/2 cents higher than the average last year, the highest since 1825. The comparative scarcity of high-grade cattle is emphasized by the fact that present quotations, when made in previous periods of scarcity, have never failed to bring a supply when one existed. Petroleum sold at \$1.57½ on Thursday, 62 cents higher than on Jan. 1 and 75 cents higher than a year ago, which is more than three times the lowest price in 1892, and the highest quotation since 1878. Reduced production and increased consumption indicate the former has been overtaken, which, with reduced stocks, produced excitement in the market.

Other advances are of leather and hides, and footwear. Shippers of anthracite coal to New Engpoints ask more f. o. b. at New At the West bar and manufactured fron have scored advances in actual transactions. Lard is higher and cotton is up 3-16 cent. Recent gains in prices for Bessemer pig and steel billets are maintained, but the request at Pittsburg and

Chicago is checked. Coffee and sugar are firm at previous prices, while the list of reactions include fractional declines only in wheat, corn, oats and pork, the latter on lower prices of hogs. Compared with February, March returns of gross earnings of 130 railroad companies may be construed as favorable, the increase over March, 1894, being 2 to 1 per crease over March, 1894, being 2 to 1 per cent. This is to be contrasted with a February decrease this year from last of 2.3 per cent. and of the January falling off this year from last of one-half of 1 per cent. When it is recalled that gross railway earnings in March, 1894, fell off 13 per cent. from the total that month in 1893, an increase last month from March, 1894, of one-fifth of 1 per cent, acquires significance increase last month from March, 1894, of one-fifth of 1 per cent, acquires significance. Exports of wheat from both coasts of the United States this week, flour included as wheat, held up to a high average—2,934,179 bushels—against 2,853,933 bushels in the previous week, 1,955,500 bushels in the second week of April, 1894, 2,948,052 bushels in the same week in 1893, 2,910,356 bushels in 1892 and 2,456,080 bushels in the second week of April, 1891.

week of April, 1891. The maintenance of a generally higher The maintenance of a generally higher range of clearings totals, an improved outlook for manufacturers in the staple lines, the spread of the feeling of confidence that the volume of business will increase in the near future and an improved crop outlook in Western and Northwestern grant look in Western and Northwestern grant look in the standard the more significantly for States are among the more significantly favorable features.

Indiana Supplies Oregon.

To the Editor of the Indianapolis Journal: For years the Portland, Ore., custom house has been taking in about \$25,000 a year in tariffs on Welsh tin. It would come in ship loads to be used in the salmon caneries in Oregon and Washington. This year no Welsh tin has come. One English ship, the Cupica, started with a load of tin, but failed to get here. The canners waited for these ships, but they did not

To-day I asked Joseph G. Megler, the

biggest salmon canner in Oregon, what he

was going to do for tin for his this year's "I've bought it," he said, "I've bought tin from Indiana—Elwood, Ind., tin." "Did it cost more than Welsh tin?" I asked.
"More!" he exclaimed, "We never bought
Welsh tin here for less than \$6.50 a box
and I've bought my tin in Indiana for
\$4.85—and better tin than we ever get in Wales."
"Don't you expect the usual English ship with Welsh tin?" I asked.
"No, I think the Cupica has landed her cargo in some other country or returned to Liverpool. There will be no more Welsh tin used in Colorado or Washington. I've contracted for my next year's supply of American tin at \$4.

And this is the end of the tin discussion, Mr. Editor. This is the end of the tin plate. Mr. Editor. This is the end of the tin-plate

liar. We will save \$25,000,000 a year from going to Wales. It will drop right down into Indiana and your State can thank Benj. Harrison and William McKinley for With free salt, free lumber and tin, made

With free salt, free lumber and tin, made in America, the receipts of the Portland custom house have dwindled from \$500,000 in 1892 to \$120,000 in 1894. I found the receipts in the Ogdensburg, N. Y., custom house had dwindled, with free wool, lumber, shingles, sheep and eggs, from \$300,000 to \$90,000. We let these things come free by the Wilson bill, but Canada still has a tariff of \$4 a barrel on American pork and 2 cents a pound on Chicago dressed beef and mutton.
